

AFTER EFFECTS AFTER EFFECTS CS4

Course synopsis

Whether you are a motion graphics designer, visual effects artist, video editor, or a rich media designer for the web, Adobe After Effects CS4 Professional lets you design and animate with greater creative freedom.

This 3-day course is designed to allow those new to post production techniques to get the most from this immensely powerful software. We use practical exercises which will cover incorporating footage with Photoshop graphics, video layering techniques, working with key frames, using masks for special effects and rendering your final project. You will also learn different rendering techniques to optimise the finished production for broadcast, DVD or the web.

What you are going to learn

Knowing the workflow

- Introduction to the workspace
- Customizing the workspace
- Importing media and footage
- Working the media

Basic Animation using Effects and Presets

- Setting up the project
- Creating the composition
