

Course synopsis

This is a session with a difference! It is not just about the features of CS4 – it is a gold mine of practical and downright useful tips, tricks and step-by-step workthroughs.

You learn innovative techniques and ideas to achieve photo realistic montages and walk away with a wealth of knowledge you can use immediately. Your syllabus is structured using real world projects with an emphasis on uncompromising quality, flexibility and speed.

Push your boundaries of digital imaging and design skills beyond imagination!

What you are going to learn

Hardware And Work Habits Matters

- Configuring your hardware for optimum performance
- Managing RAM allocation and discover how to free up RAM
- Determining and setting your scratch disk

Essential Photoshop Skills

- Making selections using color channels
- Using Color Range for advanced colour selection
- Refining selected areas
- Create smooth transitions for “difficult” objects like fire flames, clouds and water
- Applying matting commands to reduce halos
- Discovering the many ways to non-destructive editing

Unusual Ways To Bring Out Details of Your Images

- Using High Pass filter to improve focus of your images without adding noise
- Enhancing your images details with the Paint Brush tool

The Art of Creating Montages

- Learn how to create popular realistic photo compositions with ease

BONUS

- New features and refinements of CS4 are added for your ease of software migration
