

PHOTOSHOP BHOLO2ICS4

FOR PHOTOGRAPHERS - BEGINNERS

Course synopsis

If you have ever gotten behind a camera to take a picture, you will definitely believe that you cannot take a picture-perfect shot every time you press the shutter! So what do you do?

Problems and challenges faced by both aspiring and budding photographers are far and many. This concise and powerful session will definitely be an eye-opener as we dive into valuable techniques in Photoshop that will effectively solve issues ranging from fixing imperfections to digital enhancement and image manipulation!

This mind-blowing session is not only catered for photographers but also for users who are willing to start on the path of Photoshop. Definitely an earth shattering course you CANNOT afford to miss!

What you are going to learn

Getting started with Photoshop CS4

- Getting to know the work area and customising your workspace & menus
- Using Adobe Bridge to efficiently organise, browse, locate, rate and preview images
- Automatically process batches of images

Fixing common photo woes

- Accurately straighten crooked images
- Correcting image perspective
- Using auto adjustments to repair images in a jiffy
- Fixing underexposed and backlit photos
- Correcting tonal balance professionally with Levels command
- Fixing a colour imbalance with a few clicks
- Apply sharpening technique without losing details

Selection and Layers manipulation

- Using various selection tools, such as magic wand, quick select, marquee and lasso family
- Using adjustment layers to confine changes to certain areas

Advanced Retouching and Repairing images

- Digitally perfect photos by getting rid of common blemishes such as moles, pimples, freckles, eyebags and many more!
- Using Clone tool to either add or remove unwanted objects
- Correcting the dreaded red-eye with a single click

Must know Effects and Techniques

- Most-popular and most-asked-for Photoshop effects that professional photographers always use
