

Course synopsis

In this 3 day course, you'll learn how to combine and edit video, audio, effects, animation, titles and other elements to build a completed video project. We show you how to get started in assembling your video and take you step-by-step through the production process all the way to project completion.

At the end of this course, you will feel comfortable working in the Premiere environment to assemble and edit digital video projects.

What you are going to learn

Interface Design and Workflow Management

- Tour Adobe Premiere CS4 workspace and learn how to incorporate other Creative Suite components into your editing workflow

Essential Video Effects and Transitions

- Learn how to add transitions and effects to your projects
